SUMMARY

Web3 community builder and developer based in Indonesia, active in Web3 since 2023. Since September 2024, moderator, ambassador and content creator for 9 Web3 projects including TunaChain, AIVille, Rome Protocol, Gora Network and Adot. Vice Chair and manager of Brawijaya Web3 Labs, a student Web3 builder community at Universitas Brawijaya. Also builds: built AgentEco solo with Claude Code, which won 2nd place at Build Week Hackathon Vol. 2 and 3rd place (Consumer Apps) at Indonesia Web3 Hackathon 2026. Fluent in Indonesian and English.

SKILLS

Community: community management, moderation (Discord, Telegram), engagement campaigns, event organizing, public speaking, ambassador programs
Content: threads, short videos, memes, articles, Binance Square and X posts, Indonesian translation of project content; tools: CapCut, PixelLab, Adobe Express Animation, ElevenLabs
Web3 and technical: Solidity, Foundry, TypeScript, Next.js, PostgreSQL, EVM chains, technical documentation, Claude Code

EXPERIENCE

Vice Chair and Community Manager - Brawijaya Web3 Labs (formerly Superteam Campus Club UB; now independent) | Universitas Brawijaya

- Manage a student Web3 builder community at Universitas Brawijaya as Vice Chair.
- Vice event chair and speaker at the Teknologi Informasi Career Simulation (23 May 2026, 60+ attendees, open to the public).

Ambassador, Moderator and Content Creator - Web3 projects (freelance, remote) | Sep 2024 - Nov 2025

- TunaChain (Moderator and Ambassador, Sep 2024 - Mar 2025): created 100+ pieces of content, moderated Discord, and ran monthly Discord activities that raised server engagement by about 250%.
- AIVille (content partner): produced posts for Binance Square and X, with several posts reaching 20K to 95K views.
- Rome Protocol and Adot (ambassador): featured in Rome's Gladiators of the Month list and part of the Adot Ambassador Team (Senior Ambassador).
- Gora Network, eNap, MossAI, YieldFi, Legend of Arcadia: wrote educational threads, short videos and memes; managed Telegram and Discord communities; translated project content into Indonesian.

Junior Project Builder Intern - Girl Meets Tech (part-time, remote) | Oct 2026 - Present

- Build AI-assisted Web3 products from written requirements with Claude Code on a weekly delivery cycle; test, debug, deploy and present demos on X.

PROJECTS

AgentEco - solo project, built with Claude Code | Sep - Oct 2026 | agenteco.web.id | github.com/SannyDermawan

- Escrow, dispute and reputation layer for AI agents on BNB Smart Chain Testnet (Solidity, TypeScript, Next.js); 97 passing tests; @agenteco/sdk published on npm. I directed the build, reviewed the results and deployed it. Testnet only, not audited.

ACHIEVEMENTS

- 3rd Place, Consumer Apps Track - Indonesia Web3 Hackathon 2026 (Coinvestasi, Binance Academy, BNB Chain); top 10 finalist out of 228 projects from 1,811 participants across Indonesia.
- 2nd Place - Build Week Hackathon Vol. 2 (Girl Meets Tech), 2026; 130+ participants from Indonesia, Malaysia, Thailand and other countries, 50+ projects.

EDUCATION

Universitas Brawijaya - D3 Information Technology, Faculty of Vocational Studies | Aug 2025 - Present (Semester 3) | GPA 3.71/4
